No Election In Morinville Municipal District This Year

MORINVILLE—At the annual ratepayers' meeting and nominations the sitting councillor was re-nominated for the only Division requiring election this year, and as no other nominations were given he was re-elected by acclamation. Full details of this meeting will be published in a future issue of this paper.

All councillors were present at the February 9th meeting of the Council and after routine matters were attended to the following business came up for the attention of the council:

Two letters dealing with request for advances on the 1950 school requisition by the above mentioned were now read to council. The council were advised by the Reeve that the first request for the advance of \$10,000.00 had been complied with and paid and the second request was for the sum of \$15,000 advance on requisition.

MOVED by Councillor Schafers that we approve of the said advances in the sum of \$10,000.00 and \$15,000.00 respectively as requested by the Sturgeon School Division No. 24; that the same be charged against their 1st quarterly requisition which will be due on March 15th 1950.

CARRIED. PRAIRIE FARM ASSISTANCE ACT

Letter dated January 13th, 1950 from the Board advising that Township 59, Range 27, and Township 59, Range 26, West of the 4th Meridian have been declared ineligible for assistance was now read to the Council. No further report as to other townships inspected have been received.

ORDERED FILED. FIELD SUPERVISORS REPORT

The Field Supervisor now gave his report to Council. He advised that he was so busy with the Morinville Municipal Seed Cleaning Co-op Limited that he had been unable to have the report written out but would include January and February in the same report next month. The work of keeping records and taking orders for seed had been very heavy and the plant was operating full 24 hours to keep up with the demands. Question of salary was also discussed with Council and they were advised that the work could not be carried on under the present salary as this was a losing proposition for himself. He advised that he had notified the owners of the W-3 3-57-26-W4 in regards to their land being under control.

MOVED by Councillor Schafers that we pay our Field Supervisor at the rate of \$2,600.00 per year retroactive to January 1st 1950 and that we allow him 10c per mile for his car for mileage in the performance of his duties as Field Supervisor.

CARRIED. RICHARDSON SNOW BLOWER

The Council, during the lunch period, travelled to see a demonstration of a snow blower attached to a large farm tractor with H. Webb, local representative of the Richardson Road Machinery Co., of Saskatoon operating same.

SNOW PLOWING

Letter from T. D. Cunningham regarding the plowing of certain portion of the St. Charles School Bus Route was now read to Council. The matter was referred to

Councillor Meunier for his attention as soon as possible.

EDMONTON RURAL HEALTH UNIT

A Saligo Municipal Representative on the Board of the above mentioned now called on the Council in regards to the above unit. This unit is financed by the government and the Municipalities on a 50% basis and the original cost was in the sum of \$30,000.00. The government has a schedule of rates in regards to these units and it appears that the cost of the unit will increase to \$45,500.00 being for the increase in salaries and administration, etc. This would be an increase of about 7½% or an increase of 10c per capita. For an estimated population of 33,000 people this works out to a per capita cost of \$1.38; 72c of this per capita cost is provided by the Provincial Government (Dept. of Health), leaving 66c per person to be raised locally or by the M.D.'s concerned. In the past year, the local taxation was 56c and the proposal that for the coming year an addition of 4c be made to this making a total of 60c to be raised locally and the remaining 6c to be drawn from accumulated surplus. The costs as set out for the operation of the unit is as follows: Nurses (6) \$15,000.00; stenographers (2) \$3,000.00; Sanitary Inspector \$2,000.00; Medical Officer, \$6,500; Supervisor of Mental Hygiene \$4,600.00; Cars (6) @ \$840.00 per year, \$5,040.00; Cars Private (2) \$2,440.00; Rent \$2,000.00. Operation costs \$3,000.00; Superannuation \$1,000.00. Mr. Saligo advised the Council that an increase was requested for the last quarter of the present year which ends March 31st, 1950. MOVED by Councillor Schafers that we advise the Health Unit, through our representative that we do not agree to an increase until such time as the current year is completed and that any increase thereafter would have to be duly considered by all concerned including the Provincial Government.

CARRIED. ASSESSOR 1950

MOVED by Councillor Walker that we appoint Michael Hanly as our Annual Assessor for the year 1950 and that the Minister be advised by the Reeve accordingly.

ALLISON GREEN

The above case was now taken up by the Council with M. McCall and letter from his friends in Chanawahou, Ill., read to Council. The letter announced the death of his close friend, Mr. John McDonald. Mr. Hanly was advised to see the American Consul in Edmonton in this regards, and to further communicate with the party concerned in regards to a guarantee that they will attend to his welfare if he was sent to the States as well as to the costs of transportation, meals, etc. The matter was ordered tabled till the next meeting.

ASSESSMENTS

Mr. M. Hanly advised he had called at the Department in regards to assessments on Crown Property. He also spoke on Indian Reserves and assessments on personal property within the Municipality.

NEW C.N.R. HOTEL FOR EDMONTON

Work on the 300-room addition to the Macdonald Hotel, Edmonton, will be commenced early in the spring and the contract for the steel work has been let to a Vancouver firm. The addition will be 16 stories, and in addition to the guest rooms, will contain a shopping centre, ballroom, convention

and banquet halls and an air-conditioned cafeteria. "When completed the new Macdonald will be one of the finest hotels on the Continent and we will make a further much needed contribution to Canada's fastest growing city," is the opinion of Robert Sommerville, general manager of C.N.R. Hotels.

PRIME MINISTER GIVES GOOD ADVICE

The Canadian Agriculture Industry is threatened by the existence of high tariff barriers between Canada and the United States. There is a ready sale south of the border for any surplus of Canadian farm commodities, with the possible exception of potatoes. But high U.S. tariffs keeps our products from their natural market at their natural price level. The same holds true for the impoverished nations of the world.

Only through lowering import tariff restrictions of the United States can economic stability return to Western Europe or real strength be given to the North Atlantic Defence Pact, according to Prime Minister Louis St. Laurent, who points out that he does not ask any special favors for Canada but a tremendous contribution to the security of the free world generally and the United States in particular.

Mr. St. Laurent explained that the North Atlantic nations must have all-around strength if their pact is to be effective. It is not altogether a question of resisting military aggression, but the possession of sufficient staying power to win the struggle, regardless of what happens in the first stages of the conflict.

Mr. St. Laurent thinks that the United States is called upon to play the role that England enacted a century ago when "she found herself in much the same position the United States has today"—the wealthiest power on earth, with the greatest potential market. The British opened their country to the world and fifty years of comparative peace and economic progress followed, according to the Canadian leader.

Replying to the address of the Canadian visitor, George F. Kennan, Counsellor of the State Department, as a representative of Secretary Acheson, said that the thoughtful and friendly address would be carefully and sympathetically considered. He added that a comparison with conduct and attitudes in the 1920s and 1930s will readily show how far the U.S. has already advanced. Nevertheless, he pointed to adjustments which must be made, the legitimate and serious concerns to important sectors of our economy and added that the solutions can be reached only through the slow and exhaustive processes of a democratic society.

While appreciating the difficulties referred to by Mr. Kennan, we agree thoroughly with the Prime Minister that a restoration of genuine economic security from the Bay of Biscay to the Skagerrag would be "one of the most effective means of achieving military security."

SUPPORT YOUR CHURCH

The churches of the world are institutions of man, designed to help human beings toward perfection, the goal of most religions.

Intelligent men and women, for hundreds of years, have supported the church of their choice. Sometimes, superstition and ignorance have egged individuals to do great things in the name of religion but, more and more, people support churches from an intelligent appreciation of their functions.

We are not particularly interested in the Christian church to which any individual belongs. This is a matter for each person to decide for himself. The same Christ appeals to every individual as the Savior of men's souls. It is the responsibility of Church leaders to preach and teach the Gospel as they believe the Founder of the Christian faith would have them teach it. It is the responsibility of everyone to support the Gospel in the Church of his choice by supporting the Church.

Just as adults give their time and money to support other worthwhile undertakings, they should deliberately plan to give of their time and money to the church to which they belong. It takes money to run any organization and while the church has a divine mission, it has certain very definite human needs, which must be met by those who belong to it, if it is to function in a material world.

EQUAL PAY FOR EQUAL WORK

In the towns and villages, and on the farm, most folk work a six or seven day week.

In the cities, many people now work only five days a week. Much of what city people buy is produced by a long work week in the country.

Much of what rural folk have to buy is produced by a short work week in the city.

Yet earnings in the towns, villages, and farm hamlets are, on the average, lower than those of city-dwellers.

This means that most country folk are working longer hours for less money so that some of their urban neighbors can earn more money working shorter hours.

Equal pay for equal work might lead to an economic revolution and a consequent decentralization of commerce and industry, which would yield major benefits in trade, health, and citizenship.

It's funny, with all this money spent on research, that the cost of living stays put.

Alberta's Used Car Market

By JAMES H. GRAY

CALGARY—For thousands of Alberta motorists, the honeymoon is over. They are going to wake up one of these frosty Fridays and discover that they have been swindled from the "Brave New World" of their own. They have been living in for the last six or seven years. The bottom has fallen out of the used car market.

This particular fools paradise was pretty wonderful while it lasted. By the judicious placing of orders well in advance, it's been possible for a lot of people to drive new cars every year, and turn a profit on the deal. In 1948, when their new car came in, they could sell their 1947 model for enough to pay for the new one. That was true in 1947 and in 1946. But those days are gone; and forever the car dealers claim. When they go in today to talk of delivery of their new spring model they get a shock that explodes them clear out of the new car market. The dealers have dumped off their old pre-war depreciation tables and are applying them with great stubbornness and vigor.

COMING AND GOING
The sad truth about these tables is that they catch the motorist coming and going — where the turkey gets the axe. In the old days, a citizen could buy one of the smaller cars for \$1,200, drive it for a year and turn it in on a new one. His depreciation might amount to \$250. Today that car

Not many Albertans saw service in the recent war in Israel, but young Ephraim D. Wool, son of Sam Wool of Lac la Biche, has at the tender age of 21, had a world of experience.

He is now back in Lac la Biche assisting his father in the fur business. On his way back from the Holy Land to Lac la Biche he visited relatives in Coal Port, Pennsylvania. While there he was interviewed by the Coal Port newspaper. Following is the account of the interview as published in the Pennsylvania newspaper:

En route home from the Jewish-Arab conflict in Palestine a Haganah army veteran yesterday in a Coalport clothing store of his uncle said that it was only the zeal and determination of the Jewish youth that brought victory and the final formation of the new Israeli government.

"If they were to pass out medals, everybody would have one," said David Wool, aged 21, of Edmonton, Alberta, said, explaining how boys and girls 15 to 21 years of age had formed the Israeli fighting force of the Israeli army and become the "scourge" never retreated, and thought nothing of boldly sacrificing their lives to attain an objective, he said.

Mr. Wool was known to his colleagues in the Haganah, has been visiting for the past week with his uncle and aunt. Mr. Wool, a native of Coalport, left last evening for his Canadian home, completing a trip from Israel that began Jan. 28. It was the climax of his having participated in nearly every Jewish engagement

ment with the Arabs since the war in Palestine began.

Enlisting in the Haganah April 17, 1948, Wool was given one week's training and a rifle, and told that he was ready to fight. This was necessary because of the pressing manpower need at the beginning of the war. However, he had previously served in the Royal Canadian Army Service Corps and was in the merchant marine at the time of enlisting, so he felt that he had sufficient experience.

He was later to find that compared to the fighting abilities of the Jewish boys and girls, he was most inexperienced, even though he "felt like an old man in their midst."

At the beginning of the war, the Jewish army had no equipment, while the Arabs had everything, Wool said. "All we had was guts. I was able to fire just five shots from a rifle before I was killed. I was ready to die," he said. "OK, you're ready," they told him. "The highest shot in the Haganah was taken from Wool as he talked of Jewish youth of Palestine. Their bravery and boldness was such that they had only been willing to sacrifice their lives, but took delight in the singing European folk songs in the Jewish language, within hearing range of the Arabs. This had a great demoralizing force on the enemy troops, especially since the songs came to their ears through the black of night, David said.

American Jewish aid also was praised by the young veteran. "Without the help, maybe we might not have won."

As for the future of Israel: "It's terrific," Wool exclaimed in his youthful way. Then referring to the more mature, he volunteered the opinion that there is no such thing as communism in Israel. "There is more communism in the United States than in the new Jewish country," he concluded.

It's a long, long way from the sands of the Mediterranean at the icy shores of Lac la Biche. But young Ephraim has made the journey there and back safely. He has a large collection of photos taken on the excursion and one of himself, snapped in New York will be published in next week's paper.

LAST LONGER
Aside from this, western dealers are worrying about a comparatively new dark cloud on the horizon. Cars live longer today and model changes in the last decade have not been as drastic as say from the 1920s to the 1930s. In 1930, for example a car 10 years old was a really old one, a true refugee for a wrecking yard. Today there are thousands of 15-year-old cars still operating and still giving useful service winter and summer.

The top-heavy used car inventory topped many a new car agency into bankruptcy before the war. There is some evidence that this will be an even worse problem in the '50s. As car trading proceeds from new to second hand and then to junk, these collectibles at the end merchandise is only junk. But the amount of money that can be tied up and lost in junk is considerable. One Calgary used car lot which has done a big business in late models, is currently trying to clear its yards. In one advertisement alone it listed more than 40 cars and trucks of pre-1935 vintage, and a dozen of these were built before 1930.

The point here is that transportation of a kind will be available at far below the current new car prices, and this supply will make it more difficult for late model owners to escape from the clutches of the depreciation tables.

WAGE COMPARISON: CANADA AND UNITED STATES

The Canadian railways are now
contesting before a Conciliation
Board in Montreal union demands
for a 40-hour week and pay in-
creases which would add \$84-
147,000 to the railway wage bill.

One of the major railway conten-
tions in the negotiations is that
there is no justification for com-
paring wages and working condi-
tions as between Canada and the
United States. The above charts
illustrate some of the factors used
in the railway argument.

Population and national income,
which in the final analysis make
the number of people and the
amount of goods available for
handling by railways, are the es-
sential factors in railway opera-
tion. In Canada, the number of
people per mile of railway aver-
ages only 50 per cent that of the
United States. National income
for each man, woman and child in
Canada is 62 per cent that of the
United States, while the national
income for each mile of railroad
is only 29 per cent.

At the same time, the railways
of Canada have to pay more than
those of the United States for
most of the materials and supplies
which railways have to buy to
keep operating. Coal costs 51.7
per cent more in Canada, diesel
locomotives costs 24.2 per cent
more, while freight and passenger
cars, rail and all steel products
are more expensive here.

Only forest products can be
bought more cheaply in Canada,
among the items most heavily
purchased by railways. While the
costs of operating in Canada have
increased rapidly, freight rate in-
creases since 1939 have averaged
only 21.8 per cent as compared
with a 57 per cent increase during
the same period in the United
States.

Despite all these factors which
make the ratio between net earn-
ings and gross revenue lower for
Canadian railways than any Class
I road in the United States, the
wages of Canadian railway work-
ers come closer to the American
scale than the wages of those em-
ployed in all manufacturing in-
dustries in relation to the average
scale in all American manufac-
turing industries.

The chart above shows that rail-
way wages, averaging \$1,099 an
hour, are 74 per cent of the aver-
age American railway wage, while
manufacturing wages, averaging
\$0.986 per hour, are only 72 per
cent of the American scale.

Sunday School Lesson**PLANTING A CHURCH IN A PAGAN CITY (Temperance)**

International Sunday School Lesson for February 26, 1950

MEMORY SELECTION: "You are not your own; you were bought with a price. So glorify God in your body."—I Cor. 6: 19-20.

Lesson Text—Acts 18: 1, 8-11; II Corinthians 6: 14-18; 7: 1.

Paul, leaving Silas and Timothy in Berea, proceeded to Athens alone. This famous city at that time had descended some from its heights of glory but it was still wonderful for its works of art and other attractions. The Acropolis and the Parthenon are among the outstanding masterpieces of architecture of all time.

Paul's personality soon sensed the contrast between his own inherited faith in the only God and the worship of various deities by the inhabitants of Athens. Pliny states that about this time Athens contained over three thousand statues, commemorating and honoring almost every possible variety of gods and other supernatural beings. A Roman poet remarked that it was easier to find gods in Athens than men. The leading philosophic seats in Athens were the Stoics and Epicureans.

From Athens Paul proceeded to Corinth, situated on the little narrow strip of earth which unites the northern and southern portions of Greece. There is some reason to believe that Paul left Athens under compulsion, although no mention is made of any physical disturbances. Corinth had been destroyed by the Romans about two centuries before this time but had been restored by Julius Caesar about a century before Paul's visit.

Corinth was a large city, of more than half a million people, renowned for its volume of trade and shameless licentiousness. Significant of the latter was the fact that one thousand courtesans officiated as priestesses in the worship of Aphrodite. Notwithstanding these discouraging facts Paul established one of his strongest churches in this city as a result of his eighteen months work there.

Paul's experience in Corinth followed a development similar to that in other cities. First, he preached to the Jews and Proselytes of the synagogue (one of the rulers was converted) but, eventually, the opposition of the Jews forced him to leave the synagogue, which he did with his customary renunciation of responsibility and declaration of reaching out to the Gentiles.

However, as a missionary, Paul spent more time in Corinth, Ephesus and Rome than in all the other places together. Guided by the Holy Spirit, he singled out these populous centres because they were the outstanding cities of his day. As Corinth, Ephesus and Rome went, so went the world of his day.

Corinth was classified as a "pagan" city, which means a "God-less" city, although as pointed out above, there were statues in the city to more than three thousand gods. With all the gods they worshipped, the Corinthians did not worship the one true God. There are many cities today which resemble Corinth, in that they seem to be given over to the pursuit of wealth, worldliness and wickedness. Only the churches of God guided by the Holy Spirit, can combat the evil and sinfulness of these pagan centres.

What is the responsibility of the Christian in a pagan com-

munity? Paul declares that Christians should live in the world but not belong to the world. He says to Christians, "Come ye out from among them, and be ye separate, and touch no unclean thing." This is a reference taken from the Old Testament but its truths are still applicable. The lives of believers should be so clean and pure, that, like the believers of the first century, those looking on will be led to say, as they said of old, "They have been with Jesus."

LOUISA'S LETTER

Dear Louisa:

My husband and I are nearing our sixties and have a nice family, two boys and two girls. The boys are married but the girls are still in school.

For the past year my husband has been having an affair and I suspected it but was not sure until about a month ago my oldest daughter saw him in another town with this woman. Since then he has become very brazen and goes with her in our home town. The girls are hurt and embarrassed and of course I am very bitter too but they are the ones that matter most.

We have plenty of money but my husband is stingy with us and is worse now that he knows that we know about him. I am thinking of leaving him and going to another town.

What would you advise?
MOTHER—Va.

Answer:
Before you leave, consult a good lawyer so that he can assure you of a good settlement.

You have found your part and should have your share of what property and money your husband has. You should have no trouble in getting a divorce and a good settlement as he has been so indiscreet with his infidelity.

Your husband's behavior is distressing, particularly so, as your girls are at a most impressionable age.

When you get your divorce, it may be wise for you to move to another town, perhaps a college town where the girls can continue their studies and not be humiliated by their disgraceful father.
LOUISA.

Dear Louisa:

I guess this is sort of silly but I would like for you to help me. I am in love with a boy who has a great personality. He doesn't know I love him as I just met him about a week ago.

He dated a girl who has not behaved very well but I'm sure he didn't know it. He is about nineteen years old and very handsome.

I would like for you to tell me how I can let him know I love him and want to date him.
R. K.—Va.

Answer:

Unless you want to put him to flight, don't let him know you are crazy about him until he begins to like you. Just be as nice and attractive as you can and let

him see you like him and enjoy being around him.

After all, I wonder if you are really in love with him or just think you are? It is a rare thing for people to be in love on such short acquaintance. They may be attracted to other people but being really in love, is another thing again.

Give him a little time and don't be a tattletale on the other girl. Let him find out things for himself if there is anything to find out.

LOUISA.

Dear Louisa:

I have been going with a boy friend and I really love him. He has been very nice to me but he told me that he was writing to another girl. He does not write to me but he tells me he loves me more.

What do you think?
M. P.—New Mex.

Answer:
I wouldn't know but if I had to choose between a letter and a living presence whom I loved, I'd take the latter.

Surely, he must like the one he wishes to be with more than one he sends letters to.

LOUISA.

Dear Louisa:

How old do you think a girl should be before she starts going with boys to movies and parties?

CANDY—Go.

Answer:
A girl who has been brought up properly should be allowed to go with boys to movies and school parties after she gets in high school. She should not go with boys a great deal older than she is and if the places are very far it would be better for several couples to go together.

Young people of this age should be required to get home at a reasonable hour and have their parties on week-ends.

LOUISA.

Several readers have written letters asking for the addresses of the two navy boys who wished to correspond with someone. We are very sorry but we are not allowed to pass names on and we will be unable to comply with these requests.

LOUISA.

Paving Policy Upheld By City

City council this week upheld its paving policy that property must bear the cost of 18 feet of any Edmonton paving abutting it, despite protests of South Edmonton residents.

Council declared the cost must be borne regardless of whether the paving is part of an arterial highway, a bus route or an ordinary residential street, and overrode a sufficiently signed protest against six blocks of paving on 75 ave. between 83 and 89 streets — the linking strip of the new King Edward Park bus route to be instituted in 1951.

Despite a protest petition, council also authorized the widening of 104 street to meet the new four-lane Calgary highway. Residents protesting were those within the neighborhood of 72 to 76 avenues.

Mrs. Alice McKee Dies In Edmonton

Resident of South Edmonton for 43 years, Mrs. Alice Maude McKee of 9915 83 avenue, died Tuesday.

Mrs. McKee has long been active in church and women's auxiliary work. During the First Great War she was connected with IODE activities on behalf of servicemen and was associated with the British Navy Chapter.

She was a member of Holy Trinity Church congregation.

Born in Toronto, Mrs. McKee is survived by her husband, Harold Fletcher McKee, and one son, Roger Alexander of Sola Beach.

She has seven brothers: Frank, Calgary; John, Harry, Fred and Ralph Staines, all of Toronto, and Dudley and Stirling of Kitchener.

There are three sisters: Mrs. C. V. McGiffin, Mrs. A. Bird, and Miss Isabel Staines, all of Toronto.

The Lord gave you two ends—one for thinking and one for sitting. Your success depends on which you use—heads you win, tails you lose.

Baseball Writers Fail To Vote New Player To Shrine

NEW YORK. — Mel Ott, former New York Giants slugger, failed by 11 votes to make baseball's Hall of Fame.

At that, the left-handed power-hitting outfielder, came closest this year to joining the list of diamond greats already named to the shrine at Cooperstown, N.Y. None made the grade.

In the annual voting of the Baseball Writers Association of America, Ott drew 115 votes from the 167 participating. Seventy-five per cent of the total vote—126 votes, in this case—is needed.

Last year Charlie Gehringer, Detroit Tigers second baseman, was chosen by the writers.

Bill Terry, Ott's teammate, ran second among the 125 stars of other years who figured in the voting. The Giants first baseman received 105 nominations. Each writer voted for 10 players.

Other leaders were Jimmy Fox, 103; Paul Waner, 95; Al Simmons, 90; Harry Heilmann, 87; Dizzy Dean, 85; Bill Dickey, 78; Rabbit Maranville, 66; Hank Greenberg, 64; Gabby Hartnett, 54; Dazzy Vance, 52; Ted Lyons, 42; Joe Cronin, 33; Tony Lazzeri, 21; Lefty Gomez, 18; Ross Youngs and Zack Wheat, 17; Ray Chalk, Eddie Roush and Hack Wilson, 16.

ENDING SUBSIDIES

The British government has announced the ending of subsidies on foodstuffs and fertilizers, and of the ploughing-up grant. This action will reduce government spending by between 45 and 50 million pounds. The foodstuffs subsidy of about 27 million will end in February; the fertilizer subsidy of 13 million pounds is due to end in June; and the ploughing-up grant of 6.5 million ended December 31.

DEFENDERS RETAIN SKATING CROWNS

It was a happy day for Suzanne Morrow, 19-year-old Toronto skating queen, and Roger Wickson, 22-year-old University of British Columbia student from Vancouver, when they won the Canadian figure-skating championship at St. Catharines, Ont. Suzanne, a six-year veteran in Canadian and world ice-skating competition, displayed magnificent skating form to retain her women's senior singles crown. Western blade artist successfully defended the title—men's senior champion—he won at Ottawa in 1949.

SPORT SHORTS

The lads in the AP bureau in Miami thought somebody was slightly off recently when they received a message reminding them to cover a National Hockey League meeting in Florida. . . . One of them thought he'd take a chance and call Bob Balfo, Sports Editor of the Palm Beach Post-Times. . . . "Sure, I was just about to call you," replied Bob. "They're

meeting here. Said they wanted a long-range view of problems."

Casey Stengel will have eight graduates of the California Intercollegiate Baseball Association shooting for places on the Yankee squad this year. The Yanks have Wally Hood, Art Mazmanian, Charley Workman and Jim Brideweser from Southern California; Bill Renna, Tom Kelly and Lou Berberet from Santa Clara and, of course, Jack Jensen from California. Most of them still are a long way from the big club. . . . Bob McAllister, Jr., Boston College freshman who has entered the National AAU sprint races, is a son of the famous "Flying Cop" of 20-odd years ago. . . . Tips from the South say (A) Loyola of the South plans to hire a new basketball coach next season and Tulan's Cliff Wells may go for the job and (B) Pat Stark who recently scored 60 points in one basketball game for Staunton, Va., Military Academy is ticketed for Syracuse U. and why not? He's a Syracuse boy.

Sam Peden, a Kentuckian coaching at Collegeboro, Ga., high school, has Rawdoss Deal, Billy Deal and Thomas Deal on his boys basketball team and their cousin, Mary Nell Deal on the girl's team. . . . Wonder if rival coaches accuse him of double dealing?

The National Small Bore Rifle Association of Great Britain announced it has challenged the National Rifle Association of America to a match for the Pershing Trophy in 1951.

The trophy, donated by General John J. Pershing in 1931, is now held by the United States.

If America accepts the challenge, the match will be held some time between May and September in connection with the 1951 Festival of Great Britain.

Next year marks the 50th anniversary of the formation of the British Small Bore Rifle Association.

Good-looking Georges Schneider is a man of utmost confidence in his skiing ability, but he is not boasting about the world slalom championship he won recently on the Aspen mountain course.

Modern Training Of Children Held Lacking Proper Values

Today's children live in an environment which stresses disregard for life, Dr. Jesse Dell Crawford, professor at Princeton Theological Seminary, told a sectional

conference at the annual meeting of the International Council of Religious Education here.

Movies, comic books, the atom bomb, and war planes confuse children, he said, and make it difficult for them to reach an understanding of the worth and dignity of man.

"While they are being taught to be concerned about the needs of people in Europe and Asia and do something for them, children hear much of atom bombs and bomber planes for the widespread killing of people," he asserted.

"They see on every hand in actual living in their communities—in the motion pictures, comic books and newspapers—disregard for life."

Dr. Crawford said too many people no longer understand the meaning of right and wrong. They do not respect a moral order, he added, because they lack a dynamic faith in God. Consequently, he said, many children today believe right and wrong a matter of personal choice and expediency.

Stressing that parents must give children Christian nurture in the home, Dr. Crawford said:

"Of greatest importance is that children have a feeling of the reality of God, an awareness of their lives lived with God in a closeness which gives meaning to life."

Dr. Jesse H. Ziegler, professor of psychology and mental hygiene at Bethany Biblical Seminary in Chicago, in another sectional address proposed that ministers, teachers of religion, and editors of religious literature undergo training in mental hygiene just as they do in Scripture or theology.

"The importance of healthy, well-balanced men and women for religious teachers," he said, "becomes apparent when we realize that so much of the attitude of the growing person toward reality depends on the personality of the teacher—not on how much he knows."

Hawk Coach Wires Apology to Writer

DETROIT.—Hockey writer Lew Walter has an apology from Chicago Black Hawk coach Charles Conacher but the recent incident involving the two can hardly be considered closed.

Walter, writer for the Detroit Times, claimed the Black Hawks coach "slugged" him after a National Hockey League game here Feb. 8. The Hawks lost, 9 to 2.

The coach wired Walter from Chicago saying he "sincerely" regretted the event. Walter acknowledged he had received the message but said he did not "care to elaborate." Walter charged Conacher struck him in the Black Hawks dressing room following the game and has filed an assault charge against the Chicago coach. In his telegram, Conacher said: "I sincerely regret the event. It was a bad night for the Black Hawks and for me personally and I was upset. The incident which came about was no doubt due to the terrible beating the Red Wings gave us, and you know how distraught a coach becomes with the embarrassment of a 9-to-2 loss."

Button Is Barred From Skate Show

LONDON.—Dick Button, American holder of the world's figure skating championship, will be barred from participating in a television ice show here next March.

An official of the National Skating Association said the championship committee will not issue a permit for Dick to take part in any show before the world championships start at Wembley Pool March 6.

The bar also is up to Aja Vrzanova, the Czechoslovakian holder of the women's world title.

British skating stars may take part in the prechampionship show only if they do not skate with professionals and do not take expenses.

Defence in the Night

One of the first air-to-air photographs to be taken of the new Vampire night fighter, the De Havilland 113, Britain's latest night fighter. It is a two-seater machine, fitted with radar, and the nose and cockpit layout are based on the design of the famous Mosquito night fighter. It has been designed to combine the performance of the standard Vampire fighter with the crew and equipment of existing night fighters, and exceeds the performance of the latter by something like 130 m.p.h., and an extra operational ceiling of 8,10,000 feet.

Five Million Is Red Cross Aim

TORONTO—Hospital, medical and nursing services, assistance to veterans and the free national Blood Transfusion Service of the Canadian Red Cross Society will take nearly half of the Society's \$5,000,000 budget in 1950. Honorary Treasurer L. A. Winter, O.B.E., announced. The National Red Cross appeals opens March 1st, continuing throughout the month.

Detailed reports of the Society's yearly expenditures, Mr. Winter pointed out, are open for public examination.

"The financial statements of each of its 1,500 branches, 10 provincial divisions and the national office are all independently audited and the consolidated statement is issued to every newspaper in Canada and circulated throughout the Branches."

"In addition, the Department of National Defence audits a complete itemized report of receipts and expenditures of any kind."

Medical and nursing care, mainly concentrated in the Red Cross Outpost, will take \$222,697 of the budget and services to war veterans both in and out of hospitals will cost \$427,456.

The free national Blood Transfusion services has expanded from British Columbia, Alberta, the Northwest and Yukon territories since 1947 to Nova Scotia, Prince Edward Island, Manitoba and portions of New Brunswick, Quebec and Ontario. A total of \$1,831,603 has been budgeted for the maintenance and further expansion.

Services for civilian welfare, including disaster relief, are budgeted at \$86,756; for Junior Red Cross \$189,377; for research and instructional projects; \$283,026; and for International relief, women's work, grants, warehousing, transportation and administration, \$1,359,084.

It Sho' Am Cold Fo' Us Fellahs, Boss!

By GREG O'MALLEY

Troops engaged in this largest of all experimental training exercises of American and Canadian units are standing up to the weather in fine style.

Thus far, only six American negro soldiers of a truck unit have encountered difficulty, all suffering from frostbite.

"The boys, all from the southern States however, aren't letting Jack Frost bother them greatly."

"We all have heard that yuh gotta expect weather lak dis", said one of the victims "so we all gonna have tuh put up wiff it." And another chirped up: "But boss, it sho' am cold fo' us southern fellahs".

**Oliver McIntyre
Addresses Club**

At the luncheon meeting of the South Side Rotary Club held recently at Strathcona Presbyterian Church, Oliver McIntyre speaking in accordance with the 45th anniversary of the Rotary International told of how Rotary clubs were flourishing everywhere with the exception of those countries behind the iron curtain.

Mr. McIntyre said that the only great countries in which the Rotary has never functioned are Russia and Turkey.

Rotary clubs which were banned when Hitler came into power have since the war been recognized again, the Rotary clubs he said, are also again active in the countries of Italy and Japan.

Mr. McIntyre said that the Rotarians are executives who endeavor to influence the ethics of their business or professions. In all totalitarian states, or dictatorships, where all are servants of the state, they have not been allowed to pursue their objectives, he said. Consequently, there has been no place for the Rotary in Russia since the Bolshevik revolution.

In reviewing the history of the Rotary since it was founded in 1905 by Paul Harris, a Chicago lawyer, the speaker said that there are 7,000 Rotary clubs scattered around the world with approximately 350,000 members. This total he added is increasing every year with the rapid growth of the movement in free countries.

John C. Young, club president, was in the chair.

MORINVILLE MUNICIPAL SEED CLEANING CO-OP LTD.

In accordance with the contract as entered into with the provincial government it is the duty of the council to secure investments as made by the municipality and the

provincial government in regard to the said plant.

Moved by Reeve Dussault that we take the proper steps to secure said money which are invested in the said seed cleaning plant. Carried.

UNION TRACTOR & EQUIPMENT CO., LTD.

Councillor for Division 4 advised council that he wished to purchase a patrol exclusive for his division. I. Tell, salesman from the above mentioned firm, was present and advised that this machine complete with snowplow would cost \$20,713.25. The question of other machinery, namely D7 caterpillar, dozer and scraper was also mentioned. The price of this equipment was approximately \$27,000.00.

The question was debated by council fully and the financing of the same was thoroughly discussed. The cutting down of the Public Works program was mentioned as a manner in not raising the present rate of taxation, the same was not agreed upon by all the council. After due consideration, it was decided that the municipality was not prepared at this time to purchase another road patrol. It was suggested that the present patrol could be used more extensively even if extra men had to be placed on the same at the times of a rush.

The worst problem was the snow plowing. It was cited that many adjoining municipalities only plow the main roads and the school bus routes and no other roads. The matter was dropped by council and orders for grader blades were given to Mr. Tell.

BURROUGH ADDING MACHINE

Moved by Councillor Schafers that we place a price of \$70.00 on this machine as same is for sale.

Carried.

Banquet in Honor Of Baden-Powell

ST. ALBERT.—A banquet in honor of Baden-Powell was given by the Scouts and Cubs to the Group Committee and parents on Sunday, Feb. 26 in the parish hall.

At the head table was Major Campbell of Edmonton, Mayor N. Ross, Cubmaster Roberge, Mrs. Campbell, Mr. Maheux, president of Group Committee, Commissioner Holloway of Edmonton; Scoutmaster Sumner, Harold Taylor, Assistant District Commissioner from Edmonton; Assistant Quartermaster Cutler from Ottawa, Mrs. A. Foster, Cub leader from

Edmonton; Hon. Lucien Maynard, Father Magnon, Assistant Scoutmaster; Harold Vague, Assistant Cubmaster.

After a meal of baked beans, bread and pumpkin pie a program followed.

Gordon Akins proposed the toast to The King.

Rene Morin gave the toast to Baden-Powell.

Wilfred Perreault delivered the toast to the leaders of scouts.

Mr. Holloway answered. He said to learn the fun of scouting and practise the lessons learned.

Roy Sylisky proposed the toast to the leaders of cubbing.

Here Father Magnon gave a few words.

Maurice Roberge said there were 26 cubs but there should be more boys of that age group that should be there.

Harold Vague asked for another assistant cubmaster and appealed to each of the boys to bring in a new member.

Mr. Holloway led in a jolly song.

Rene Brodeur gave a toast to the Group Committee which was answered by President Maheux.

Gerald Vague toasted the parents.

Joe Rouault gave a toast to the boys.

Members of the Group Committee were presented with lapel pins by Commissioner Holloway. Mr. Maheux Mr. Akins, Mrs. Lamer, Mrs. Sumner, Mrs. Vague, Mr. P. Morrin, Mr. A. Kennedy.

Andre Rouault gave the toast to the church and clergy which was responded to by Fr. Magnon.

Mr. Ross praised the boys on their improvement in giving a helping hand to the needy.

Mr. Akins said he wished more parents had been present and that the boys are receiving a training which will be of benefit to them in the future.

Hon. L. Maynard complimented the boys on their program, congratulated the parents and leaders and said the boys must be prepared to work and to play.

Harold Taylor offered to help with the games and camping when spring comes.

Mrs. A. Foster filled in place of her husband. She has a troop of 42 cubs. She has had nine years' experience. She gave encouragement for boys to carry on with their cub work.

Presentations were made. There are 18 Tenderfeet and eight 2nd class scouts.

Proficiency badges were given to Rene Morrin, 6; Lucien Brodeur 3; Wilfred Perreault, 6; Gordon Akins, 4; Roger Sevigny, 3; Oliver Perreault, 3; and Lawrence Wakefield.

There were four boys who were 12 so are eligible for scouts after being cubs, thus receiving their Leaping Wolf badge: Raymond Pinco, Larry James, Bradley Sumner, Joe Kennedy. They are now entitled to wear the scout uniform and become members of the Eagle Patrol. They received five badges to put on their shirts.

Some of the scouts gave a debate. Resolved that suspenders should be worn instead of belts. Decision was declared a draw. Debaters were Lawrence Leclair, Belhumeur, Rene Brodeur and John Scott.

TERRY IS DEAD

MORINVILLE.—Our little boy is very heart-broken because he witnessed his faithful pal, a black spaniel dog, crushed under the wheels of a speeding truck. The truck driven by a speed artist, never stopped to help the stunned child home, but speeded on at a faster clip missing other children by a hair's breath.

It was only a little dog this time but what guarantee has anyone that the next victim will not be an innocent bystander or a playful child?

It is good food for our council to feed on at their first opportunity.

DISCOVER THE MANY ADVANTAGES From the Use of a MECHANICAL SPREADER!

Among implements which have proved of great economic worth to the farmer, the manure spreader occupies a very important place.

Plants have to make their growth upon material in their immediate vicinity. The even, thorough work of a spreader is an important factor in promoting uniform growth and maturity of your crops, and in increasing the yield.

Developed to meet the need for a light, strong, easily handled, economically priced spreader, the Massey-Harris No. 10 is the leader in its class.
